

Ace Your Test

Subject: Standardized Test Preparation

Age / Grade Level: All elementary grades taking a standardized test.

Program Length: Approx. 50 min.

Key Message: This show covers very specific test-taking strategies and has been co-developed directly with educators who know these tests thoroughly.

Some of the important points that an Ace Your Test show may emphasize include:

- Important preparations before the test. (e.g., getting a good night's sleep, eating a healthy breakfast, showing up on time, etc.)
- Paying close attention to all instructions, questions, and answer choices.
- Previewing test sections and budgeting test time wisely.
- The proper way to fill out answers on answer sheets.
- Using the process of elimination to make a better educated guess at tough multiple-choice questions.
- Writing 'open-ended' constructed responses clearly and neatly.
- Supporting constructive responses with proof, evidence and detail.
- Most importantly: Confidence and a great attitude!

Of course, each standardized test is different in style and format, so we modify our program according to your needs.

No matter what standardized test your elementary school will be taking, YoJo's Ace Your Test assembly program will definitely help your students be well prepared, confident, and energized to put forth their best effort.
