

Bully No More

Subject: Anti-Bullying

Age / Grade Level: Grades 1 – 6*

*The content and style of this program better serves children above the level of kindergarten.

Program Length: Approx. 45 min.

Key Message: Bullying is wrong. Bullying should not be tolerated, and bullies, bully victims, and those who are witnesses to bullying need to take care of their situations appropriately.

Synopsis: YoJo now has a bullying problem. The problem is that YoJo is the Bully! In fact, YoJo initially uses bully tactics on easy targets just to get laughs from others. But when YoJo realizes how frightening and harmful bullying can be, he learns how unfunny and “uncool” being a bully really is. YoJo and the show’s host then review the important things for kids to do if you are being bullied, if you are a bully or if you are witness to someone else being bullied. These include....

- Standing up to those who bully (when it is safe).
- NOT making things worse by bullying back a bully, and NOT losing your cool in a bullying situation.
- Being supportive to others who are victims of bullying.
- Talking to an adult about it.

The program concludes when YoJo sees an audience volunteer being put in a mock bullying situation. YoJo responds by putting his arm around the victim, taking him/her out of the situation, and getting him/her involved in a friendly activity.

Great For: Teaching a serious life lesson, but in a very positive and upbeat manner. The show also features a large screen video board to stress the important lessons, as well as many fun surprises, too.
